Tech Idea Ltd.

About Us

The company was founded by a team of enthusiastic IT specialists who wanted to overcome the routine and create a company that would act in the market not only for business success but for the sake of IT itself. On this journey, the lessons learned helped to be successful by overcoming the obstacles to attain their dreams as it were their children.

The years of experiences with similar mindsets helped start **TECH IDEA LIMITED**, a versatile company, with a vision and hope to create a better world and a brighter tomorrow with efficient computing. We are a leading independent, end-to-end IT services company, helping customers harness the power of innovation to thrive on change by offering high quality IT solutions to companies as well as individuals, without compromising the quality and efficiency.

Moreover, our team constantly works on developing and improving our service performance to satisfy our customers and maintain long-term cooperation with them.

Mission

Provide solution that adds value, transforming your dream & idea to **REALITY** in your business.

Vision

We have grown on a belief that nothing would beat you if you keep your values alive. We play focused and planned with our best-kept values of quality, commitment, and perseverance. These are the primary force helping us define, design, and deliver a solution with perfection. Each pixel is treated with these values and each line of code is mixed with the right plan of product liberation and validation to bring the best worth to you.

Values

INTEGRITY: Know and do what is right

RESPECT: Treating others the way you want to be treated

RESPONSIBILITY: Embrace opportunities to contribute

Services

💡 **Software Development**

We develop, customize, migrate, and modernize custom applications for specific business needs such as data, workflows and infrastructure management, customer engagement, analytics, digital content, and e-commerce.

💡 **Web Solutions**

Design & Development of Websites, Client-focused, customer-centric, creating website solutions that deliver tangible business results, Tech Idea's web developers help brands the ever-changing digital landscape.

💡 **Graphics Design and Branding**

By using corporate branding with a successfully marketed service or product, a company can familiarize consumers with its products and may create brand loyalty. We approach problems and build brands from three different perspectives: what you don't know, what you think you know, and what you are willing to know.

💡 **Technology Consulting**

To enforce your decision-making, Tech Idea delivers tailored consulting services, including technology and product road mapping, legacy audit, workflows formalization, programs for technology refreshment, and expansion.

💡 **Quality Assurance**

Tech Idea provides both during- development and independent QA consulting and testing services. Our experts adhere to Test Early and Often approach, while applying test automation practices for human effort reduction.

💡 **Product Development**

We assist you through the entire product lifecycle, from ideation to featuring on application stores and managing updates, addressing critical issues, such as idea feasibility, store compliance, monetization, and licensing.

💡 **Operations Support**

To ensure the hassle-free and secure operation of your IT systems, we offer all-around maintenance, enhancement, and configuration services. We deploy stable solutions for 24/7 application monitoring and management.
